Rod Culleton finally got a reply to the FOI request written 2 months ago to the Attorney - General for legality of the removal of the Great Seal of the Commonwealth in 1973. The Great Seal is required to make Commonwealth law. It is the most central thing to run Government and Parliament under the Constitution. The answer came in yesterday morning. They have now admitted that they did not have any authority to removed the Great Seal in 1973.The document received is the single most important thing to do blow every current government and parliament in Australia out of the water. It's the magic bullet that has hit them between the eyes, out through the teeth down to the swinging wand and out the south low docking port. ? ? ? ? Documents today have been filed with the Federal Police. The UK Government has also been put on notice. Now to dissolve Parliament's back dated :)) Celebration Time:))
