# 1. The Living Soul Vs The Person

## The Living Man or Woman

- Created by God
- Has inherent rights
- Stands under Natural & Common Law
- Can inherit land
- Has jurisdiction in law

## The PERSON

- Created by registration
- A corporate fiction
- Subject to statute
- Cannot inherit land
- Exists only on paper

# 2. How The Person is Created

- Birth registered
- Certificate issued
- PERSON created
- Presumption attaches: **YOU = PERSON**
- Corporate jurisdiction begins

This is **Roman law**, not Commonwealth law.

# 3. How Jurisdiction Attaches

Corporations gain power when you:

- claim the PERSON
- use ID
- sign forms
- apply
- register
- consent
- remain silent

Identity → Standing → Jurisdiction → Remedy.  
If identity is wrong, everything collapses.

# 4. Digital Id — The Final Capture

Digital ID is not primarily about technology.  
It is about:

- merging your PERSON
- with a global corporate identity grid
- giving jurisdiction to foreign systems

- closing the exit door

Digital ID locks a man or woman:

- into the PERSON
- into the corporate world
- into statutory control
- into permanent civil subordination

You cannot walk out of a Digital ID system —  
it is designed to erase the living status.

## **5. The Commonwealth Remedy**

The Commonwealth Public Trust restores:

- lawful identity
- nationality
- jurisdiction
- standing
- the ability to inherit land
- protection of estate
